IN THE CLAIMS:

Kindly cancel Claims 1 through 10, and insert the following new claims:

--11. A method of treating a human patient suffering from B-cell lymphoma comprising the following steps:

(i) administration of a non-radiolabeled chimeric anti-CD20 antibody which when administered at a dosage ^{of about} ~~ranging from 0.4 to about 20.0~~ mg/kg body weight results in nearly complete peripheral B-cell depletion within about 24 hours post treatment infusion; and

(ii) administration of at least one chemotherapeutic agent.

12. The method of Claim 11, wherein said chimeric anti-CD20 antibody is administered once a week at a dosage ranging from 0.4 to about 20 mg/kg body weight for about 2 to 10 weeks.

13. The method of Claim 12, wherein said chimeric antibody is administered for four weeks.
